G. O. P. Subsmelling Committee Runs Afoul of Reason and a Democratic Adminis-U. S. SEEKS SETTLEMENT tration Waged the War.

JONESBORO, Ark, Feb. 14 (Spi - The general manager of the Jonesboro Lake City & Eastern railroad stationed in this city was advised by wire from the conciliation bureau of the department of labor at Washington that they were dispatching 8. Meyer, of New Orleans, to Jonesboro for negotiation and settlement of the striking carman and officials of the Jonesboro, Lake City & Eastern railroad

ported.

It is interesting to nois that the chairman of the aviation subcommuties. James H. Frear of Wissonem has a war voting record of the type popularly termed pro-German. He favored the McLemore resolution ferhodding Americans to lake passage on ocean ineta and size the resolution favoring an embarge on the sais of munitions and he voted against the war with Germany conscription, the espicings addard the first revenue bill among others. It was Frear whose methods of conducting examinations in the Pacific Northwest were termed of the bullying, police court type by influential men and newspapers of his own party. The tenor of the majority or Republica, report was indicated by the opening paragraph of the minority report submitted by Representative Clarence F Lea of California, as follows.

The intemperate biased and vituperative language in which the magnitude of the majority and the majority and the majority and the majority and the majority of the minority report submitted by Representative Clarence F Lea of California, as follows.

OBSERVE ANNIVERSARY

JONESBORO, Ark., Feb. 24 (Spl.)-

The Rotary dub of this dity will observe the litteenth anniversary of the Rotary club by helding a service Eunday morning at the First Presbyterian church conducted by Dr. Barbee, paster of the church, and also president of the Jonesboro club.

LITTLE ROCK: 48 WHITE

JONESBORO ROTARIANS

sacrifices of facts to sensationalism, its exaggeration of alleged mistakes and LITTLE ROCK; 48 WH! mismanagement, its gratuitous reflection upon men who faithfully served the government during the war, its repetition of defarmetery charges admittedly unsustained by evidence, its resert to innuendo and interence to cast reflections which should be positively asserted, and responsibility therefor bolding assumed or the publication thereof withheld its attempt to deny and server worthy accomplishments of LITTLE ROCK, Ark. Feb. 24. (Spl.)

A religious census of Little Rock shows there are five more negro church in this city than white. Out of a total of 10k churches in the city 53 have negro denominations. thereof withheld its attempt to deny and ignore worthy accomplishments of the air service, its failure to find any-thing worthy or commendable in all the runds that were spent, or the serv-ices of the thousands of men who self-sacrificingly devoted themselves to the cause of their country in the greatest of wars, is an index to the worth of the report that at once impeaches its merit and excites incredulity as to its reliability."

Frear "A Monstrosity."

This Democratic indictment of the Freur report was privately upheld by a Republican member of the general committee on war expenditures, who branded the latter 'a monstrosity. In face of the Freur charges of utter failure Representative Lea presents official figures, which were likewise furnished Representatives Freur and his Republican colleague. Walter W. Marse, of New York, as follows.

During the war America established and maintained more than 80 aviation training schools of various kinds in this country and Europe in which thousands of our young men were trained. She produced 11.760 airplanes and at the close of the war was manufacturing them at the rate of 25.000 a year; she produced 30,630 asconautical engines which had an aggregate horse power equal to approximately one

engines which had an aggregate horse power equal to approximately one-eighth of the total horse power of all the locomotives in the United States. She received and paid for 6.745 engines and 5.071 planes from the allies of which over 2.500 were service planes used by the American forces in Europe. On the day of the armistics America had 1.620 service planes available for use on the front lines. She furnished the materials and supplies that made possible the maintenance of the allied air forces and finally resulted in their predominance by nearly 100 per cant on the Western front. U. S. Flyers Brilliant.

U. S. Flyers Brilliant.

"In machines that she ewned inericals flyers went to the front and established part of the most brilliant record of the war. For each American in our forces who perished in combat as average of over two and one-half of the snemy fell. Thousands of patriotic Americans faithfully intelligently and self-sacrificingly contributed to this program of accomplishments. For it all the majority of this committee have neither recognition nor commendation. They can only find faults. The reward they offer for this service to their country by their countrymen is snaring criticism, fault-finding, complaints and destructive vituperation."

The minority report states what the majority report omits, the interallied agreement of Dec. 4 1917 that the fluoropean allies should manufacture the necessary pursuit planes the increased production being made pessible by materials furnished by America. In this way much time was saved, the latest approved fighting models were obtained and the greatest of fidelency made pospible America received 1.521 pursuit planes in this way. Indulge in Innuendoes. Indulge in Innuendoes.

Indulge in Innuendoes.

In the course of their junket to the spruce forests of the Northwest the Republican 'smellers' issued a vicious attack upon John D. Ryan, of New York, who had been head of the aircraft production department when the armistice was signed, all of the charges—admittedly hearsay—failing of substantiation. These charges included the assertion that Mr. Ryan had used his aircraft position in such a way at to cause the construction of a apruce logging religional so that it could be used later by the Chicago, Milwaukee & St. Paul road, of which Mr. Ryan was a director. Hears Frear and Magoe weakened in writing their viport, and instead of direct charges included in innuendoes. The facir of the investigation had showed that the plan for the logging road was determined weeks before Mr. Eyan was connected with the sirecraft production, that officers of the Milwaukee railway system opposed the route selected and had advocated the tarround out of its own extension plans though futilely. "I am familiar, and so is the public.

Mother! Teach the Children Their Daily Health Duty

You can't be too insistent!

FEW children find pleasure in the things most vital to their physical comfort and health. so it rests with the watchful mother to see that they are done. The child will be grateful in after years. ○ Chief among the functions necessary to the upbuilding of the little body, so that it will not be a dyspeptic, constiputed body when it matures, is elimination regularly every morning. If the mothwill be insistent and allow nothing to interfere with it, it will soon become a babit, a daily routine that will not be forgotten throughout life.

There are times, however, when nature will not operate unaided. Then give Dr. Caldwell's Syrup Pepsin, which is a combination of simple laxative herbs with pepsin, and the headaches, the biliousness, the torpor will quickly disappear. It acts gently and without griping, and as it contains no parcotics and is pleasant to the taste, it may

be given to infants. Thousands of families have been regulated to healthy maturity with Dr. Caldwell's Syrup Pepsin.

A bottle can be bought at any drug store. In a large family there is always someone who would feel better for a dose of a good medicine like Dr. Caldwell's Syrup Pepsin.

In spite of the fact that Dr. Cald-

well's Syrup Pepsin is the largest selling liquid laxatue in the world, there being over 6 million bottles sold each year, many who need its benefits have not yes used it. If you have R not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington Street, Monticello, Illinois.

that your body undergoes a complete change of structure every seven years.

This tearing down and building up process of body tissue continues without a moment's pause throughout life. And when a man gets into a

physical condition that the tissues keep breaking down and wasting away faster than Na-ture can replace them, right then he begins to grow "old". This doesn't necessarily

mean, however, that he has reached an advanced age Thousands upon thousands of people begin to break down, their vital organs giving evidence of fast approaching decay, long before they reach middle age simply because they fail to give Nature, at the proper time, the needed help to rebuild.

If you are beginning to show the slightest sign of a physical "let-down!"—if you are losing your old time "pep" vim and vigor—if high tension energy and nervous strain are beginning to tell on you-it's a sure sign that you are growing "old" -too old for your years. You've reached that stage where your vital forces need rebuilding. Don't make the serious mistake

The Chance that the Army Offers

"As a corporal I was drawing down \$38.10 a month every time the bugles blew 'Pay Day'

"And when I read in the papers about the big civilian pay envelopes, civil life opportunities looked pretty good to me!

"I took up my old job when I got back and when then they raised my pay to \$35.00 a week-almost as much as I got every month in the Army-well, I thought I was sitting on the world.

"But times have certainly changed! Thirty-five a week today goes like a breeze. Food has advanced, shoes cost more, and every time I buy a suit I think I'm paying for the war as well as fighting it.

"I'm classed, I guess, as just an unskilled worker, I left school too early and I'm sorry for **拉斯斯斯科尔斯斯斯斯**

Gran Grant "And where'll I be ten years from now? Answerme that! Workingfor day wages, making a living and nothing more? I guess not-for I'm going back to join the

"I'm going to take a job that will give me more free eash than I get today - a job that'll mean all my expenses paid - a training that will make me the kind of man who succeeds and a life that'll keep me feeling fit and fine."

Health, Travel and Training

Congress has appropriated \$2,000,000.00 to be used in the Army Schools. In many schools and posts you will have the opportunity of being trained in the skilled trades and at practically all Army stations, schools are in operation in which you can improve your education.

You'll have enough out-door work to keep you in perfect trim. You'll learn the sort of discipline that makes a man able to handle other men. You'll have a fine crowd of buddies. You'll live a fine healthy life-no soft snap about it, but it will be a life that will make you a regular man.

You'll learn how to hold up your end in any company. You'll have an increased abilitya sure self-confidence on your return.

You'll be a part of America-one of its fighting men-its bulwarks of defense. If there's any trouble that the Army has to settle you'll have a red-blooded man's chance to do your share of the cettling.

And three years from now, when the men who are working besides you now are still working for day wages, you will step out with a training that will command real money.

Think it over. The next three years at home; and no further along at the end.

Or the next three years in the Army, and a training that you can cash in on for the rest of your life. It's worth investigating, isn't it? Worth stopping in at the recruiting office to talk to the man in charge.

The Nearest U.S. Army Recruiting Stations Are:

Main Station, 155 Eighth Ave. North, Nashville Local Station, 126 North Court Ave., Memphis

If parents desiting information about the Army will write to the local recruiting station, an officer will call on them and answer any questions.

THE 14 ARMS OF THE SERVICE

The Recruiting Sergeant can give you the information that will help you decide which branch fits you best. In all of them you will get the fine training as a soldier that the United States offers all its men -in many branches you can get highly specialized training.

INFANTRY-The men who have made the name of "doughboy" feared and respected throughout the world welcome you to the comradeship. Fine fellows-good fun and good training in any school at the post you go to.

CAVALRY-When the horses are champing at the bit and the "yellow legs" mount up and the troop rides forth, there is a thrill that no old cavealryman can ever forget. A horse of your owna good outdoor life and training for future success.

FIELD ARTILLERY - "Action Front" comes the command—then watch the boys with the red hat cord snap into it. A happy outfit-with the

known the world over for its excellence and an enlistment in the engineers can be the start of a young man's training in the various branches of engineering and in the mechanical and building

guarding big cities with big guns, getting time for study and a wide and good technical training, the C. A. C. man is preparing for a useful life and good pay and is having a good time while he's learning. The C. A. C. also mans the mobile big gun regiments throughout the country.

-The man who gets the early edge in experience with aeroplanes and balloons has a chance to cash in big on his army training. For flying is only in its infancy and it's going to be a profitable business for men with the right experience.

technical training.

Signal Corps is always valuable.

MEDICAL DEPT .- Good experience, good pay, and training in all branches of hospital work. Excellent opportunity for future success. The Veterinary Corps teaches the care of horses as well as meat and milk inspection.

TANK CORPS-The man who knows gas motors and tractors or who wants to know them is invited to join the Tanks. Radio, machine gun and ordnance work are all parts of the Tank Corps

OUARTERMASTER CORPS-The Corps that feeds and clothes the Army offers a valuable trains man who likes horses in the Remount Service.

CONSTRUCTION DIVISION-Practical work in the many trades is part of the every day life of the Construction Division, Many opportunities to learn the trades of highly paid specialists.

CHEMICAL WARFARE SERVICE-For a man with a little knowledge of chemistry or for any embitious young man who would like to get that knowledge, there is interesting work and rapid
